Data Quality Report

The Data Quality Report Template will summarize data quality issues from the selected source, including severity levels and resolution plans. It will aid in systematically identifying and rectifying data discrepancies.

Data Source	Data Quality Issue	Severity	Resolution Plan
Dataset	441 missing values in government_ai_policy.	Moderate	Check the original source and fill values where reliable; otherwise retain them as missing.
Dataset	Different indicators use different units, such as percentages, minutes and index values.	Low	Standardize units and formats before analysis.
Dataset	Monthly observations require consistent date formatting across 2015–2026.	Low	Convert all month fields into a standard date format such as YYYY-MM.

Dataset	Percentage-based variables may have inconsistent numeric formatting.	Low	Convert percentage fields to a consistent numeric scale and apply percentage formatting.
Dataset	Multiple countries and regions require consistent naming conventions.	Low	Standardize country and region names before creating visualizations.
